A tip: print these [newspaper reports](#) and read a few of them every night. It's fun and interesting stuff - and certainly nothing to laugh about.

Of course, the newspaper reports on this site have been carefully selected (I've literally gone over thousands). Especially in later years, over 98% or so of these reports are useless because they have nothing to do with journalism or unbiased reporting. Most articles in this area are filled with the opinions of organized "experts" and skeptics who never researched anything, never seen anything and really don't give a damn about the UFO phenomenon. All they want to do is mock, ridicule and intimidate anyone who has an interest in the topic. The only reports that have been taken up are the ones that are rational, (largely) unbiased, and focus on reporting the facts and witness accounts - because this is all that matters.

You might want to keep one other thing in mind: although UFO reports have come in by the hundreds of thousands over the decades, statistically the chance of seeing one still ranges from 1 in several dozen or hundred in a few small areas to as low as 1 in 30,000 or less in most other regions. In other words, the fact that you, your friends and your family haven't seen anything really means very little. Now, some might argue that seeing a UFO can involve more than just dumb luck, but that's a discussion for another day.

Sep. 23, 1947, memorandum of General Nathan Twining to General George Schulgen. (PDF) Twining joined the ultraright CIA- and DOD-dominated [American Security Council](#) after his retirement.

"We have a new project--Project SIGN--which may surprise you as a development from the so-called mass hysteria of the past summer when we had all the unidentified flying objects or discs. This can't be laughed off. We have over 300 reports which haven't been publicized in the papers from very competent personnel, in many instances--men as capable as Dr. K.D. Wood--and practically all Air Force, airline people with broad experience. We are running down every report. I can't even tell you how much we would give to have one of those crash in an area so that we could recover whatever they are."

March 17, 1948, Col. H.M McCoy, chief of intelligence for the USAF's Air Materiel Command at Wright-Patterson Air Base, to the Air Force Scientific Advisory Board. (PDF) Theodore von Karman was chair of the AFSAB. Edward Teller, later of the ultraright [Center for Security Policy](#), was another member. USAF AMC was headed by General Nathan Twining.

"We had a number of reports from reputable people (well-educated, serious-minded folks - scientists and flyers) who surely saw something. There is no question about it: these were things which we could not tie in with any natural phenomena known to our investigators. ... And repeat again: there were some cases we could not explain. Never could."

In brief

On this site the reader can find about 100 articles with a total of 1.7 million words, not counting (fully written-out) sources, press reports, membership lists with biographies, and outside work. If the information is reorganized a little, it would be possible to publish it in about twenty 300 page books.

Air Force General Curtis LeMay (1965, Curtis LeMay and MacKinlay Kantor, 'Mission with LeMay: My Story', pp. 541-543) LeMay joined the ultraright CIA- and DOD-dominated [American Security Council](#) after his retirement

"28 Jan 1950: Lt Col Lester F. Mathison, Commander, 625th Air Control and Warning Squadron, Elmendorf AFB, reported seeing an Unidentified Flying Object (UFO) while walking from the operations building to the squadron orderly room. He described it as three reddish-orange objects about the size and shape of a pencil eraser above a small cirrus clouds approximately 25,000 to 35,000 feet above the ground. They appeared to be moving in trail, in a slightly curved line, heading north before they disappeared. Colonel Mathison called a nearby sergeant to witness the sighting. The objectives disappeared before he arrived. The Alaskan Air Command Intelligence staff ruled out the possibility that the objectives sighted were jet aircraft.

"Colonel Mathison's sighting was a series of UFOs observed during the January-June 1950 period. Sergeant William Y. Harrell, a control tower operator on Elmendorf AFB, spotted two green lights at 0122 hours, 19 April, at an altitude of 200-300 feet over one of the hangars. He and an assistant observed them move in a trail formation to a position within 1,000 feet and about 25 feet above the tower. For a brief moment, one of the lights emitted a very greenish trail. Both lights increased in brightness as they came closer to the tower and appeared to be 24-36 inches in diameter, compact and circular in shape. They appeared to glow, with deep green centers fading to yellowish green on the outer edges. The lights veered away from the control tower and passed on the opposite side of the base water tower, heading southwest towards Merrill Field. The disappeared from view one mile south of Elmendorf AFB. Other personnel on the ground also observed the lights. They appeared to be traveling at 300 miles and hour as they traversed Merrill Field. Intelligence personnel ruled out other aircraft or weather phenomena."

Elmendorf Air Force Base, Office of History, 'Remembering our Heritage' (as found, somewhere online, [between May 2012 and April 2013](#)). The author ran into this himself on a hunch after reading about a Douglas C-54 Skymaster with 44 people on board that vanished near Elmendorf base on January 26,

1950, right when this UFO flap occurred. Not at all sure if there's a connection, but it's quite a coincidence.

UPDATE: Finally looking to back up the relevant PDF anno 2024, it turns out this passage has been [removed from Elmendorf's 'Remembering our Heritage' document](#), in one uploaded on April 9, 2013 by 'alaskawingcafe.org' at Yumpu.com. A 2005 'Remembering our Heritage' version, which may contain the passage is [locked away under "Access: Confidential"](#).

"Military secrecy veils an investigation of the mysterious, glowing aerial objects that showed up on radar screens in the Washington area Saturday night for the second consecutive week. A jet pilot sent up by the Air Defense Command to investigate the objects reported he was unable to overtake the glowing lights moving near Andrews Air Force Base."

July 28, 1952, Washington Post, "Saucer' outran jet, pilot reveals'.

"Administration radar operator tracked four UFOs flying over California at speeds up to 3,600 mph [5,760 km/h] last spring. The circumstances were similar to past radar sighting which could not be identified as conventional aircraft."

Sep. 17, 1957, Fort Pierce News-Tribune, 'Afraid Neighbors Will Laugh?' The official flight speed record at this point was 1,132 mph / 1,822 km/h.

"A group of more than 50 top commercial airline pilots, all veterans of more than 15 years with major companies, yesterday blasted as "bordering on the absolute ridiculous" the Air Force policy of tight censorship, brush-off and denial in regard

to unidentified flying objects - flying saucers. One termed the Air Force policy "a lesson in lying, intrigue and the 'Big Brother' attitude carried to the ultimate extreme." Each of the pilots has sighted at least one UFO, the majority several... Since the appearance of the above article Mr. Lester has informed this Committee that 400 more pilots have joined the list of the original 50."

December 22, 1958, Newark Star-Ledger, 'Pilots Ridicule AF Secrecy on Saucers'.

"Through official secrecy and ridicule, many citizens are led to believe the unknown flying objects are nonsense... to hide the facts, the Air Force has silenced its personnel."

Adm. Roscoe Hillenkoetter, first head of the CIA (Feb. 28, 1960, NY Times, 'Air Force Order on 'Saucers' Cited').

"All they had taken this time was the rectum. But that had been removed in the usual expert manner. The hole was almost a perfect, smooth circle where the blade had been. ... Grass was still hanging from the half-open mouth. The cow hadn't even glanced around. ... Ranchers are comparing notes. In an overwhelming number of cases the animals are missing the

same parts: the left eye, left ear, lips, tongue, sexual organs, rectums and sometimes the heart. Eerie enough in itself. But there is more. Some ranchers insist the blood has been drained from the animal. Others agree that, drained or not, there is never a trace of blood on the ground around the carcass. Equally bizarre, no tire tracks or human footprints can be found, even in muddy fields thick with hoof marks, although some animals have been discovered miles from the nearest road, others only yards from houses. Stranger yet, the animals haven't been shot, bludgeoned or slashed to death and there is rarely a sign of struggle. How do they die? Concern has turned into alarm, in some counties into panic. ... Some students of ancient religions and not-so-ancient cults think the mutilations are the work of Satan worshippers... Some people also attribute the mutilations to men from outer

space. Certainly in the 1960s and 1970s a bizarre epidemic that only affected animals - not humans. Highly scary, strange and seemingly totally pointless.

space, which may now rank as the second most popular explanation."

Sep. 11, 1975, Los Angeles Times, 'Mutilations of Cattle: Terror in Colorado Ranchers Arm Selves as Mystery Killings, Butchery Increase'.

"When the jets came to within five miles of the UFO, it fired at the lead jet, disintegrating it before the eyes of the wing man who returned to base terrified for his life," Spaulding said. The documents disclose sightings of unexplained objects over Malmstrom Air Force Base in Montana, Loring Air Force Base in Maine and Wurtsmith Air Force Base in Michigan."

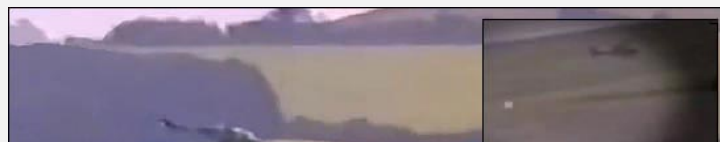

Jan. 20, 1979, L.A. Times, 'UFO Group Wins Access to CIA Reports On Saucers'. Certainly the first part here has a high chance of being disinformation.

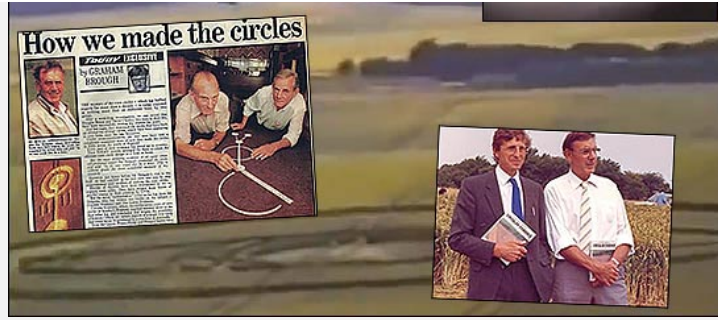

"This thing has gotten so highly classified... that it is just impossible to get anything on it... I have no idea of who controls the flow of 'need to know,' because frankly, I was told in such an emphatic way that it was none of my business that I've never tried to make it my business since."

Sen. Barry Goldwater, who in the early 1980s reportedly was told by his friend General Curtis LeMay to leave the subject alone (Aug. 8, 2001, Florida Today, 'Rush takes aim at UFO politics'). Goldwater was a darling of the American Security Council.

"Clinton had said, 'If I put you over at Justice I want you to find the answers to two questions for me. One, who killed JFK? And two, are there UFOs?'... Clinton was dead serious. I had looked into both, but wasn't satisfied with the answers I was getting."

Webster Hubbell, associate attorney general of the Justice Department under Clinton, in his autobiography (Nov. 23, 1997, NY Post, 'Bill Wanted UFO Probe: Hubbell Book').

East Field, Wiltshire, Great Britain, July 21, 1994. Quite possibly a fake circle with a real light orb. See [ISGP's article on crop circle formations](#)

"It's time to open the books on the question of government investigation of UFOs. It ought be done because it's right. It ought to be done because the American people can handle the truth. And it ought to be done because it's the law."

John Podesta, a former White House Chief of Staff during the Clinton Administration (Oct. 25, 2002, Space.com, 'UFOs: Seeking the Truth Through Savvy Marketing').

"On 15 February 1999 an air traffic controller in Scotland noticed something strange on his radar screen. A bright blip on his screen suggested there was a very large object travelling at 3,000mph over the Scottish coastline heading south-west to Belfast. The size of the blip suggested the object was 10 miles long and two miles wide... According to official CAA reports, in the same month that a radar picked up an enormous object flying across Scotland, a pilot flying over the North Sea became startled when his aircraft became illuminated by an 'incandescent' light. Three other aircraft in the area reported seeing a ball of light moving at high speed. Air traffic controllers reported there were no strange aircraft in the area, but five minutes later an operator at a weather station picked up a fast-moving object on his radar... Other documents [1960s] from that time state: 'The press are never to be given information about unusual radar sightings... and [unusual visual] sightings are in no circumstances to be disclosed to the press.'"

June 4, 2000, The Observer, 'Britain's UFO secrets revealed'.
